NEW 80% S-Series Furnaces and Phase Out of Legacy Furnaces

Trane is pleased to announce the launch of our very first 80% S-Series furnaces. Both the S8X1 & S8X2 furnaces feature 80% AFUE, 9-tap Constant Torque ECM blower motors, 4-way poise convertibility (no dedicated down flow models required), and are offered in A/B/C/D cabinet widths. Like all S-Series furnaces these models are 34" in height, offer multiple venting options in every position, and the AirTite™ cabinets are certified to have <1% air leakage.

**California 40 ng/J Low NOx models will be indicated with a 'T' in the 12th digit. These models will start production in February.
