Trane® is pleased to introduce the XL1040 Zone Control, compatible for use with Trane Zoning solutions, Nexia™ and Nexia™ Diagnostics. A connected XL1040 zone control enables homeowners to view and control their zoned system. Nexia™ Diagnostics provides dealers with system data to remotely monitor and diagnose customers' HVAC systems to ensure optimal performance.

XL1040 features in clude:
▸ Nexia™ Smart Home and Diagnostics compatibility
▸ ComfortLink™II Zoning Systems compatibility
▸ 3-Wire Communicating Zone Control
▸ 4.3" diagonal color touchscreen
▸ Zone Mode options: Auto only
▸ Fan Mode options: Auto/On
▸ Zone Temperature & Relative Humidity display
▸ Average multiple zone temperature sensors
▸ Outdoor temperature display (Nexia registration or wired ODT required)
▸ Clean screen function
▸ Ability to operate in Farenheit or Celcius
▸ Zone setpoint adjustment at 1040, 1050, and Nexia Smart Home
▸ Schedule 1040, 1050, and Nexia Smart Home
▸ Zone schedule override with permanent hold capability
▸ Zone sensor naming available at 1040 and 1050
▸ Local and/or OTA software upgrades
▸ Screen color and backlit options
▸ Screen saver options
